KØGE GYMNASIUM

‘It was a very engaging and lively presentation. Everyone who attended gained a great deal of knowledge and an understanding that would be difficult to acquire through reading alone.’

Torben Karlshøj and Heidi Sandorff, Køge Gymnasium

ESPERGÆRDE GYMNASIUM

‘I had the pleasure of welcoming Emir as a speaker at an event for history, social studies and religious education teachers at Espergærde Gymnasium. Emir gave an extremely engaging and lively presentation on the history of Turkey and on why Erdoğan is so popular in Turkey, while being unpopular in the West. We had the opportunity to learn more about both Erdoğan as a person and Turkey’s current domestic and foreign political situation. Emir also offered a perspective on the political situation that is not often encountered in the Danish press.

Emir was a very well-prepared and lively speaker. He placed great importance on engaging in dialogue with us and made room for questions during the presentation. We gained a much better understanding of why Erdoğan has such strong support in Turkey.

I recommend him wholeheartedly.’

Mia, social studies and history teacher, Espergærde Gymnasium

MAGASINET RØST

‘Emir’s presentation was delivered extremely professionally in terms of structure, spoken language and entertainment value. … I really like this approach, which involves the audience.’
